HOLINESS TO THE LORD

Vol. 3 — I Am The Master *Builder* — No. 3

Additional Resources

I Am the Master Builder

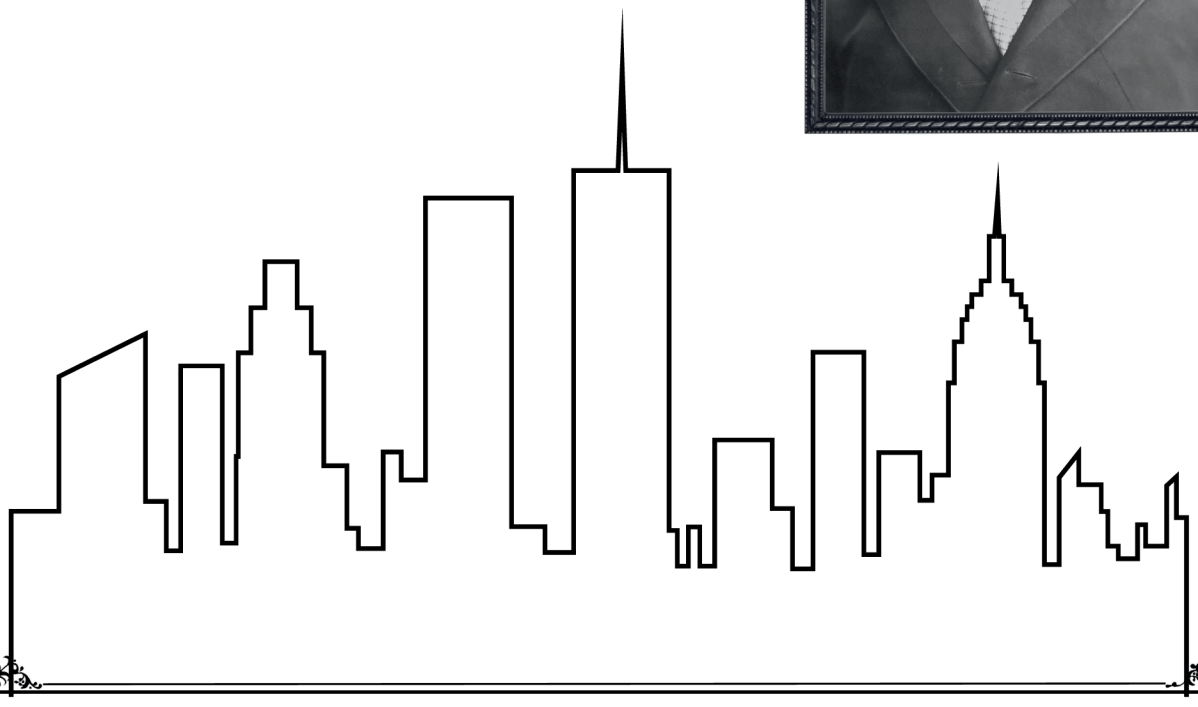

As you explore this issue, look for what building can teach you about Jesus Christ, the Master Builder. Strong buildings need a sure foundation, a good plan, and patience to build one piece at a time. Our lives do too.

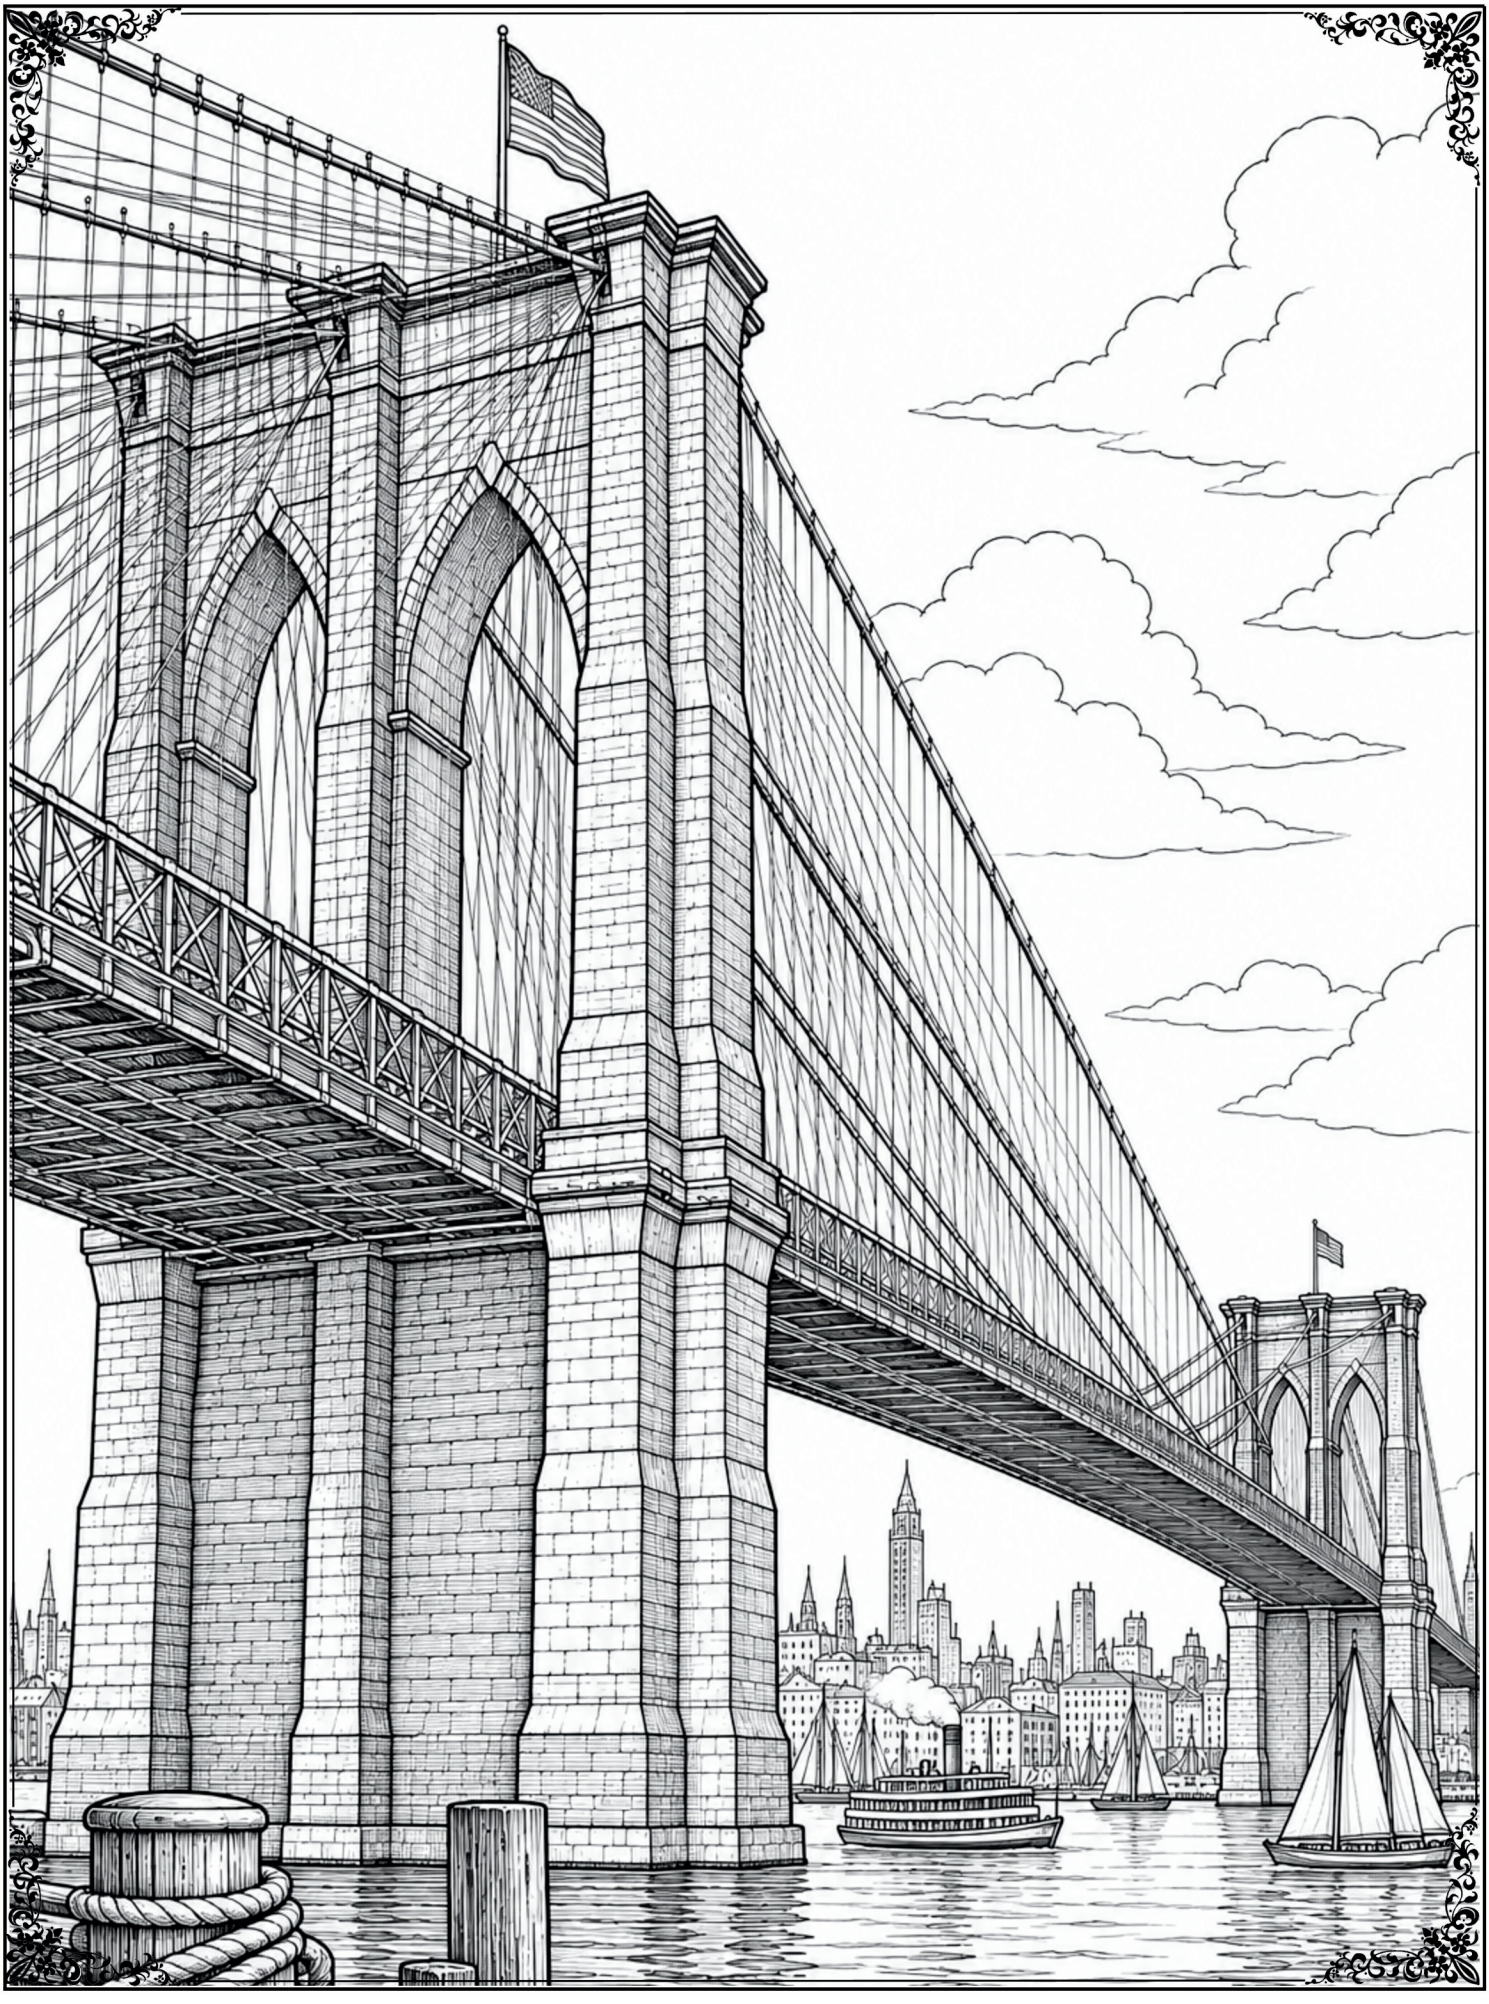

As you read, build, and create, remember that Jesus Christ is your sure foundation. Follow His plan, trust Him, and let Him help you build something beautiful with your life.

♥ Ged R. Cannon

This resource is a companion study to The Millennial Instructor, Vol. 3, No. 3: "I Am The Master Builder," It is designed to help deepen learning through inspiring challenges, creative thinking, and gospel-centered exploration. Master Builder Playlist

Scan the QR code with your phone or tablet, or search "MI–Master Builder" on YouTube, to access a special playlist curated by The Millennial Instructor Team. The videos follow the order of the articles in this issue, making it easy to watch, learn, and explore as you go.

- The Brooklyn Bridge
- La Sagrada Família
- The Provo City Center Temple
- The Kirtland Temple
- The Wright Brothers and the first flight
- Jonathan Browning and his famous firearms
- Cove Fort and Ira N. Hinckley
- Simple machines and how they work
- Amazing builders, structures, and engineering
- And more!

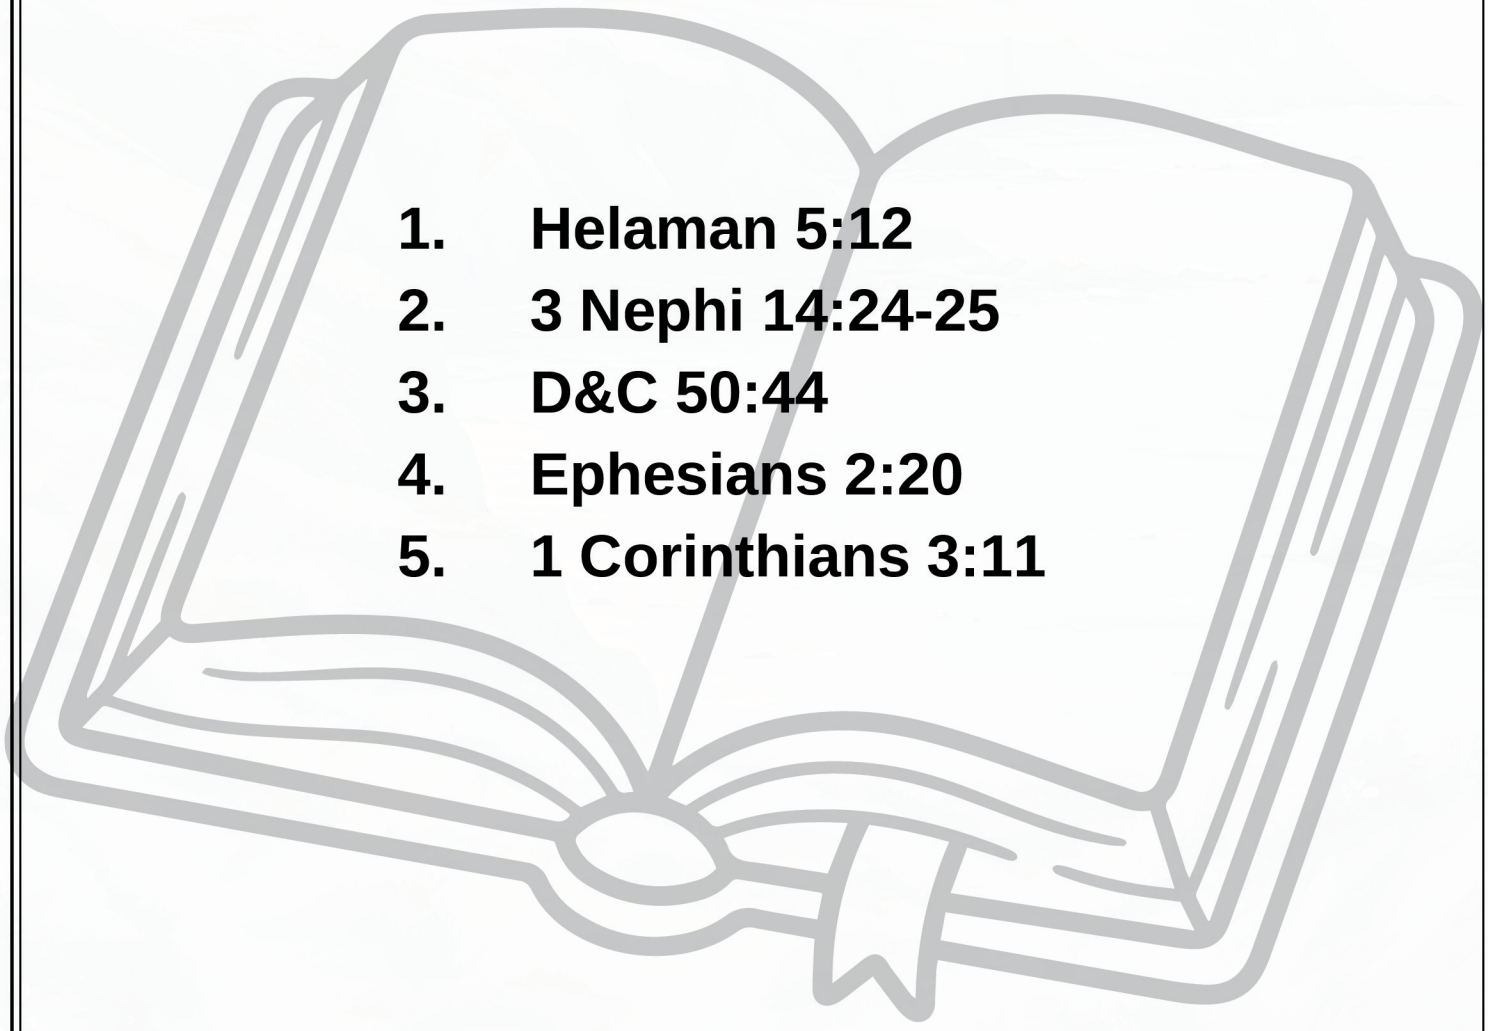

Master Builder Playlist

Watch the Master Builder
Playlist on YouTube and discover something new!
Draw or write one interesting thing you learned in each building block.

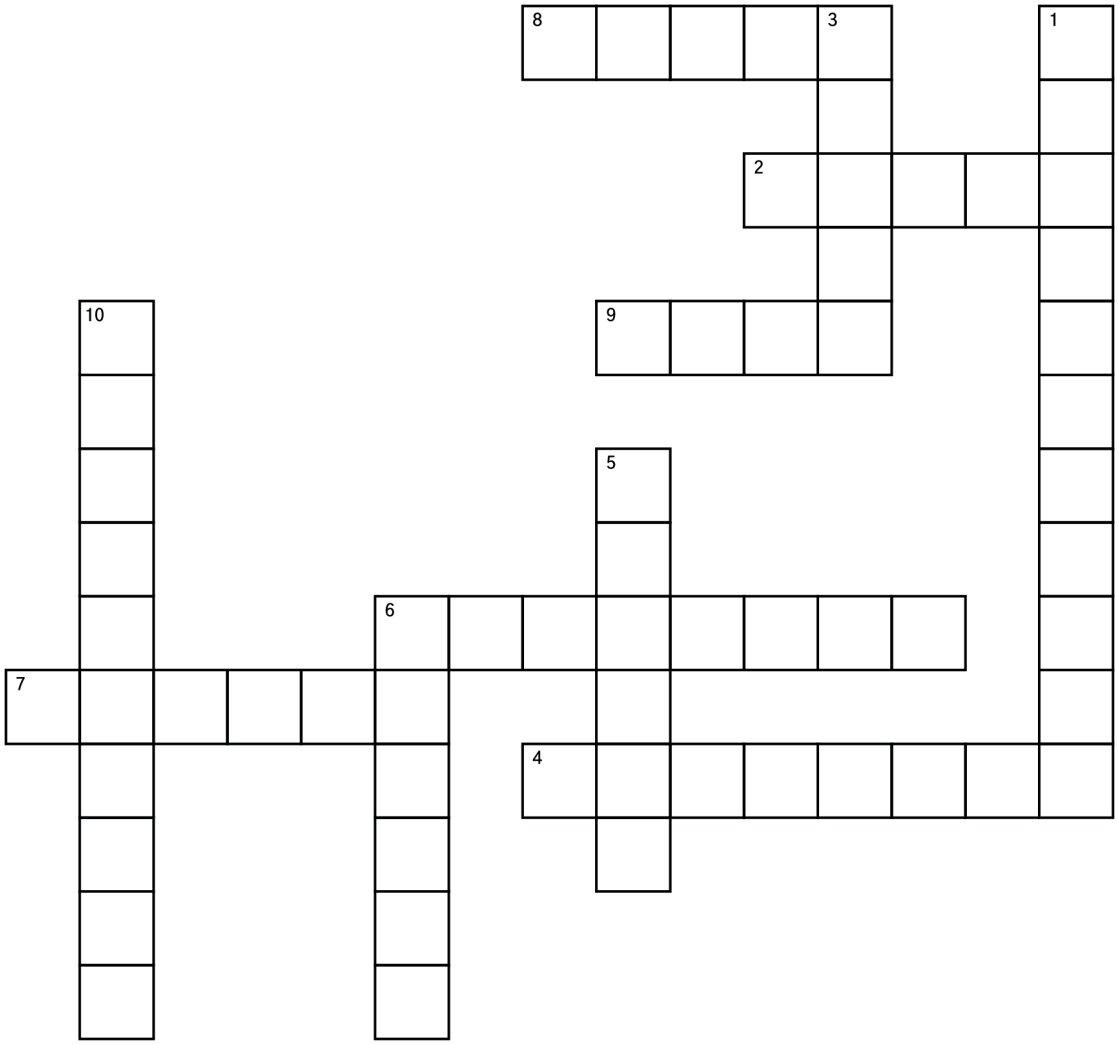

Builders Scripture Search

Look up each scripture and find the building words. Write the words below, then underline or mark them in your scriptures.

1. **Helaman 5:12**
2. **3 Nephi 14:24-25**
3. **D&C 50:44**
4. **Ephesians 2:20**
5. **1 Corinthians 3:11**

Builder Crossword Puzzle

Across:

2. A simple machine that helps you lift or move something.
4. The central stone that holds an arch together.
6. A structure where people live, work, or gather.
7. A tool used to drive nails into wood.
8. A fastener with threads that twists into materials.
9. A small metal fastener you drive in with a hammer.

Down:

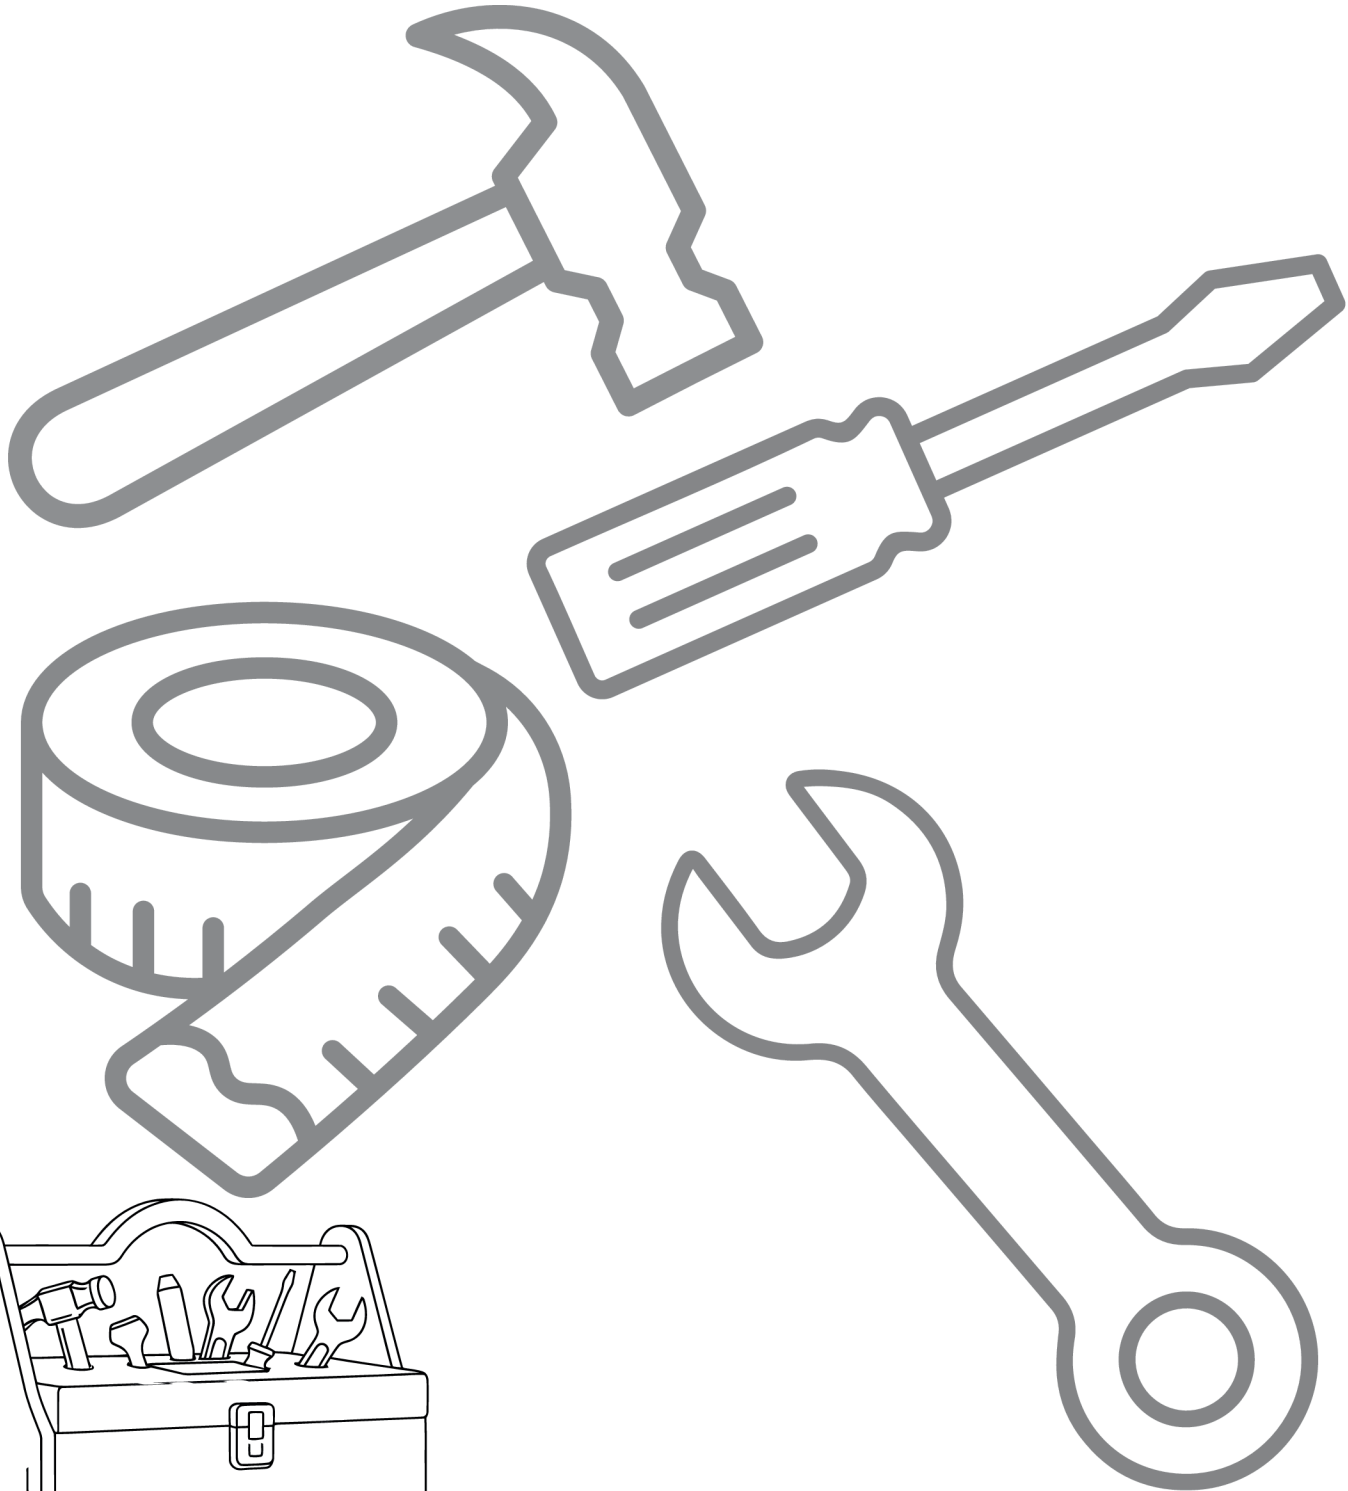

1. A special stone placed at the corner of a building.
3. A round object that helps things move.
5. A wheel with a rope that helps lift heavy things.
6. A structure that helps people cross over water, roads, or gaps.
10. The strong base that supports or holds something up.

Word Bank: Keystone, hammer, foundation, cornerstone, wheel, pulley, lever, building, bridge, screw, nail

The Master Builders Toolbox

On each tool below write down a christlike characteristic in the Master's toolbox.

My Master Plan- Life Blueprint

Imagine you are the architect of your life. Every choice you make is like placing another block in the person you are becoming. What do you want your life to be built upon?

In each block, write or draw something you want to be part of your foundation.

Famous Builders

BUILDERS WHO CHANGED THE WORLD

Throughout history, builders have used creativity, courage, and careful planning to create structures that still inspire us today.
Learn about six famous builders and what they built!

IMHOTEP

Ancient Egypt

TRIVIA:

What famous pyramid is Imhotep believed to have designed?

Answer: _____

FILIPPO BRUNELLESCHI

Renaissance Italy

TRIVIA:

What famous cathedral dome did Brunelleschi design?

Answer: _____

ISAMBARD KINGDOM BRUNEL

19th-century Britain

TRIVIA:

Name one kind of project Brunel designed or engineered.

Answer: _____

GUSTAVE EIFFEL

19th-century France

TRIVIA:

What famous Paris landmark is associated with Gustave Eiffel?

Answer: _____

FRANK LLOYD WRIGHT

United States

TRIVIA:

What kind of work was Wright famous for designing?

Answer: _____

EMILY ROEBLING

United States

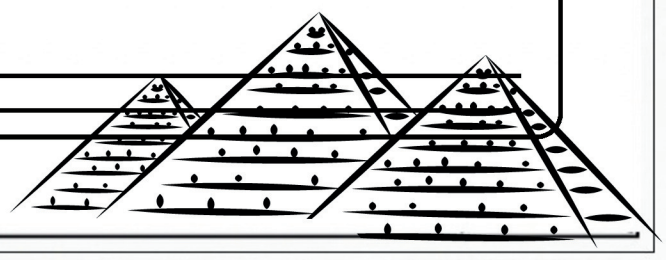

TRIVIA:

Which famous bridge did Emily Roebling help oversee?

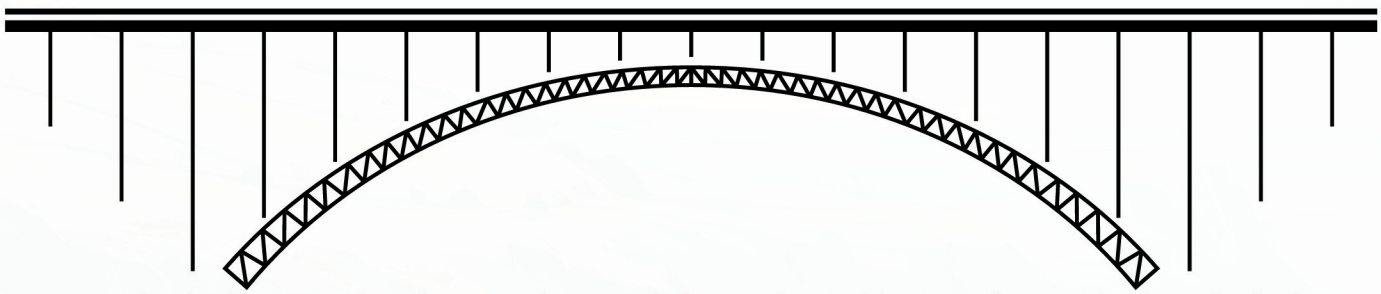

Answer: _____

MY BUILDER REFLECTION

Which builder or building do you find most interesting? Why?

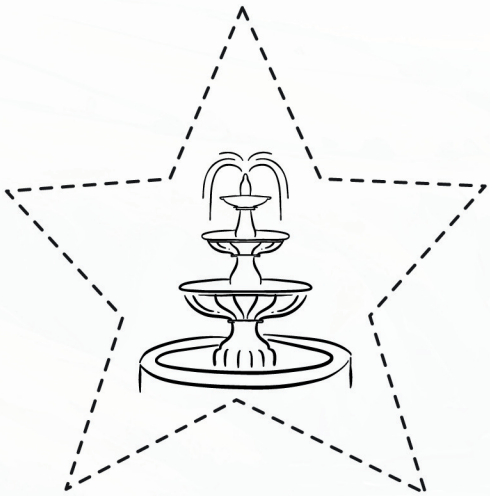

Design Your Own Bridge

Every great bridge begins with a plan! Use the space below to draw a blueprint for your bridge. Think about its shape, supports, and what will make it strong. Then bring your design to life using materials you have at home. Once your bridge is finished, test it! How much weight can it hold before the design needs improving?

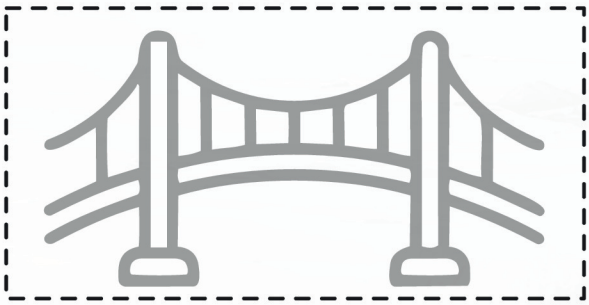

Try using: popsicle sticks, balsa wood, toothpicks, cardboard, glue, building blocks, LEGO® bricks, or other materials you have on hand.

Simple Machines

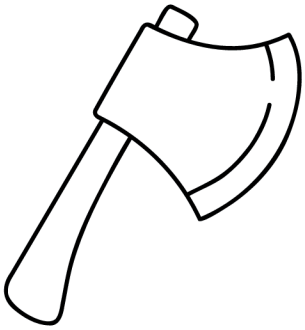

1. Can you name these simple machines?

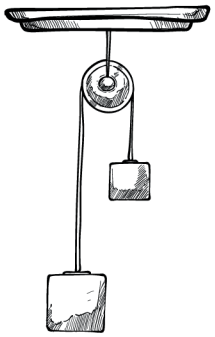

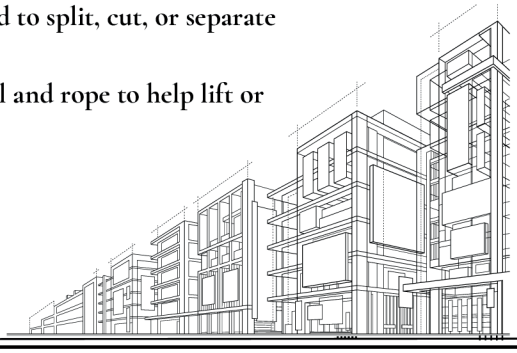

- What simple machine can help you lift something heavy by pushing down on one end?
- Which simple machine has a spiral thread that helps hold things together?
- What simple machine is a slanted surface that makes it easier to move something to a higher place?
- What simple machine allows a wheel to turn around a central rod?
- What simple machine is often used to split, cut, or separate things?
- What simple machine uses a wheel and rope to help lift or move objects?

Word bank: wheel, screw, wedge, incline, pulley, lever

Design a Zion Community

Can you use the grid below to design a zion community. What kind of stores, houses, churches, schools do you think exist in a zion community?

Print Copywork

And now, my sons, remember, remember

that it is upon the rock of our Redeemer,

who is Christ, the Son of God,

that ye must build your foundation;

Helaman 5:12

Cursive Copywork

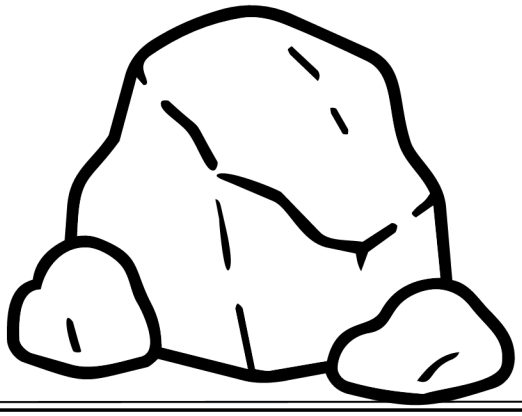

And now, my sons, remember, remember

that it is upon the rock of our Redeemer,

who is Christ, the Son of God,

that ye must build your foundation;

Helaman 5:12

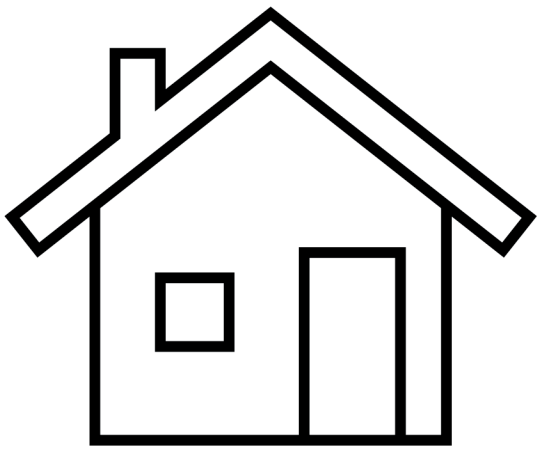

Kinder Copywork

Build your house

on the rock

of Jesus Christ

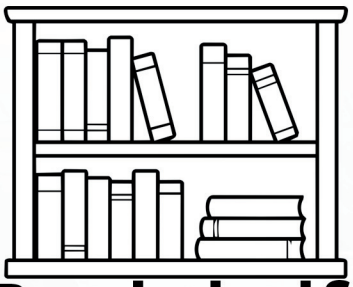

Ruler and Measurement Practice

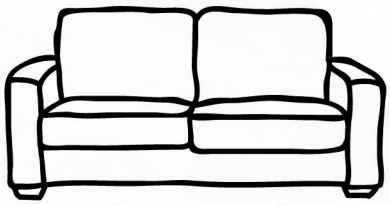

Pull out your ruler or measuring tape and find these things around your house to measure.
Write down measurements below.

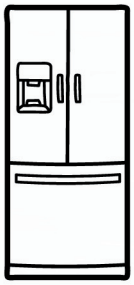

Table

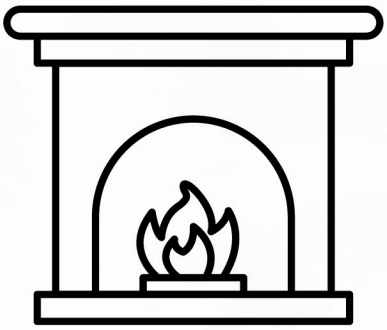

Bookshelf

Couch

Refrigerator

Fireplace

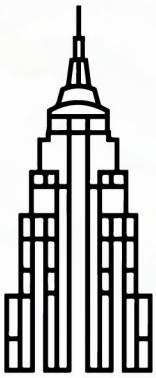

Bed

What is the biggest thing you have at home?

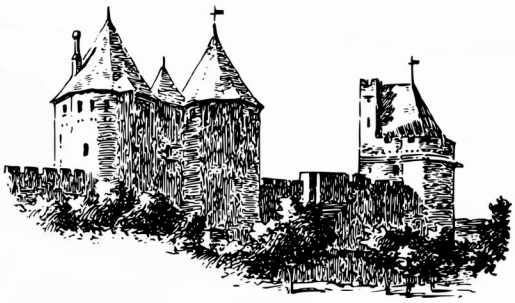

Famous Buildings

Can you find where these famous buildings are located on the map?

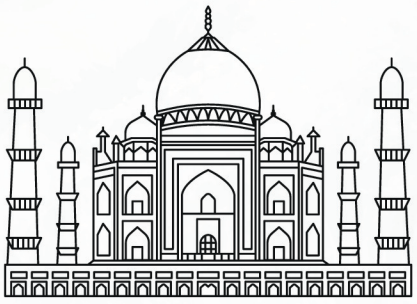

The Empire State Building

Neuschhwanstein castle

The Parthenon

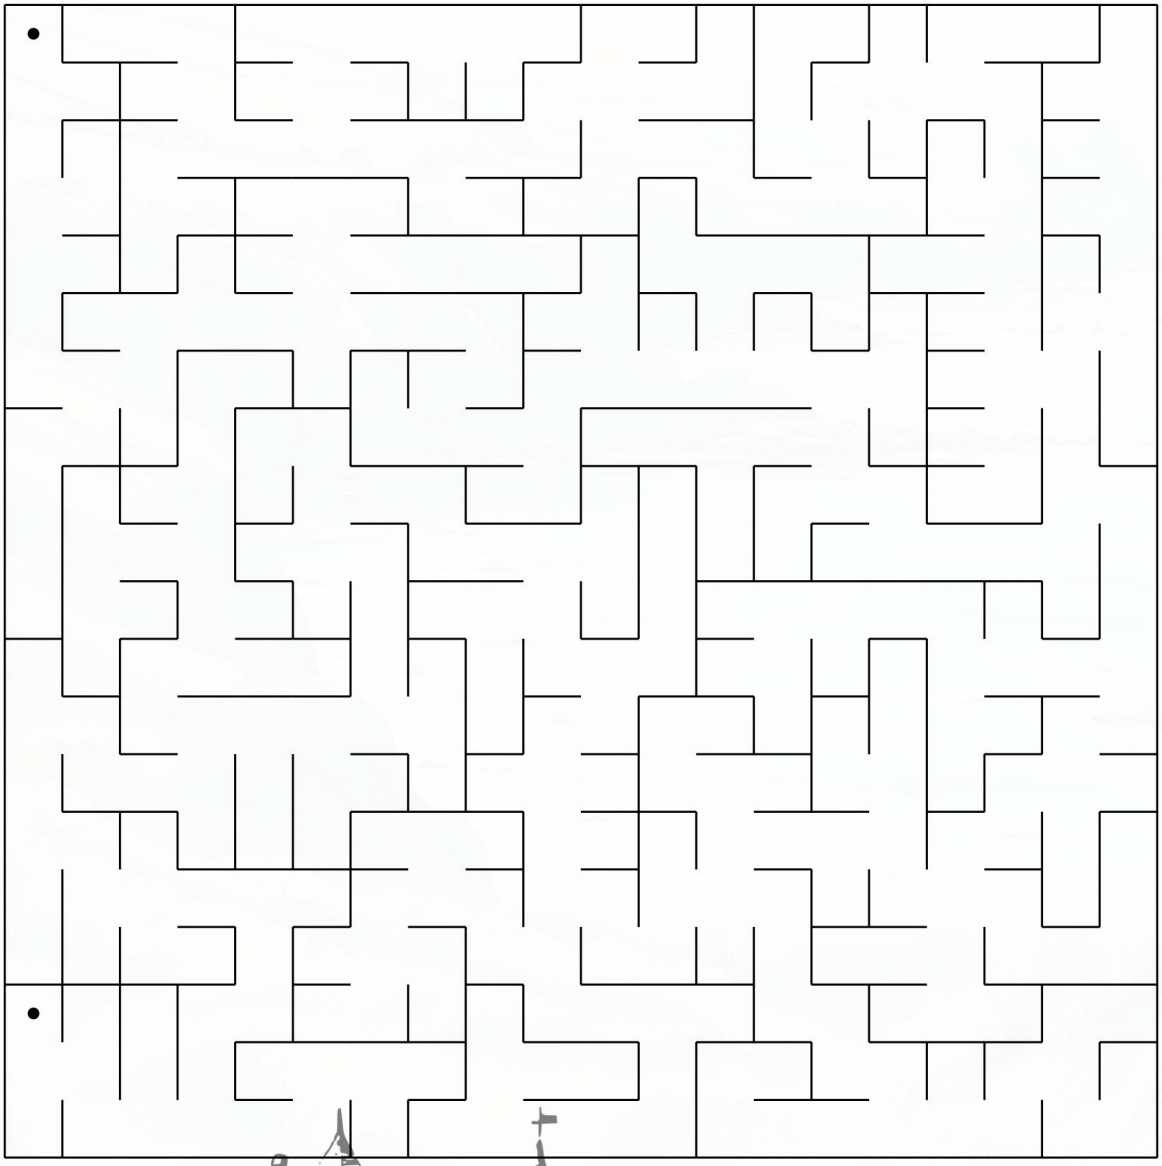

Taj Majal

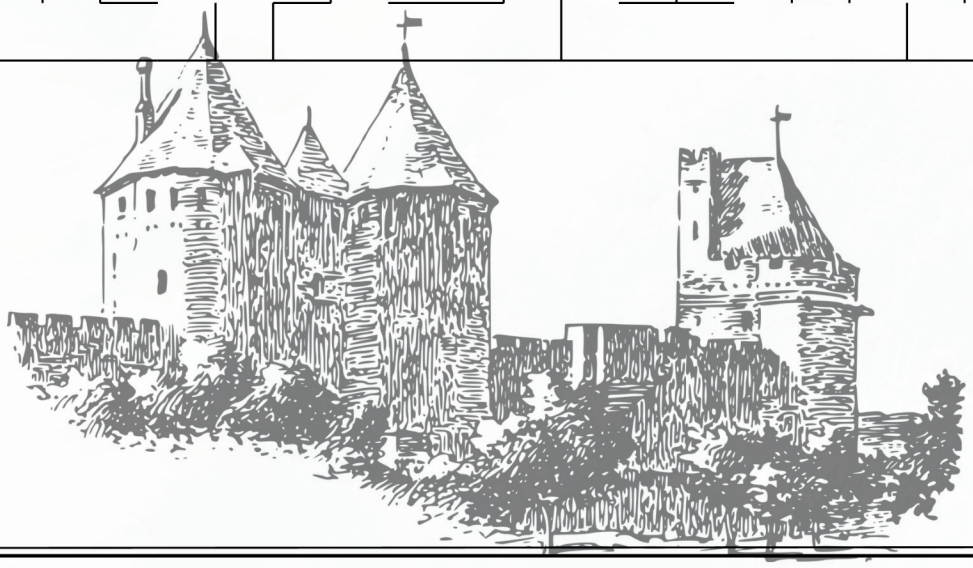

The Eiffel Tower

Building Maze

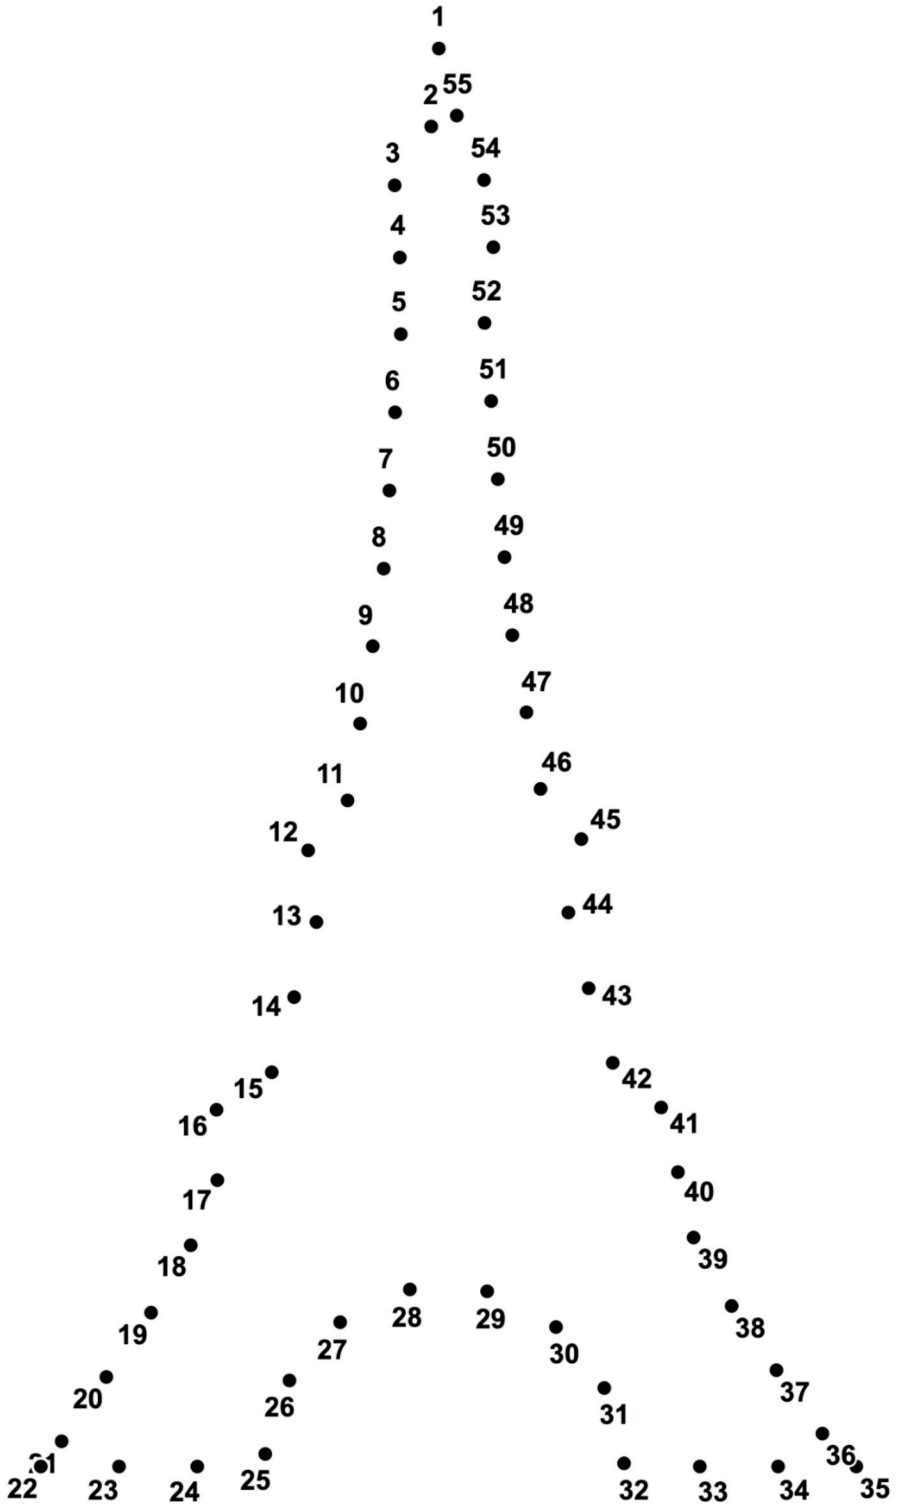

Can you find your way out of the maze?
(start at the dot at the top and end at the dot at the bottom)

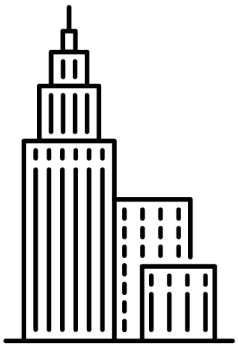

Connect the Dots

Can you figure out what structure this is by connecting the dots?

Millennial Minds

Scholarly Adventures for Teens and Adults

☐ *The Builder Behind the Building:*
Choose a structure you admire and research the person—or people—who built it. What challenges did they face? Did their first plan work? What mistakes or setbacks occurred along the way? What qualities helped them finish? Write down three lessons from their experience that could help you when something you are building, learning, or working toward becomes difficult.

☐ *Build Something That Serves:*
Some of the greatest things we build aren't for ourselves. Look around your home, neighborhood, school, or church and find a need you could meet with your own hands. Repair something broken, build a shelf, make a birdhouse, create a Little Free Library, plant a garden box, or design something that makes another person's life easier. Jesus Christ spent His life building up others. What can you build that blesses someone else?

☐ *Blueprint Challenge:*
Great builders rarely begin by simply picking up a hammer. They begin with a plan. Choose something you would like to build—a treehouse, tiny home, garden shed, bridge, piece of furniture, or even your dream house. Sketch a simple blueprint and label the dimensions and materials you would need. Then think about something you hope to build in your own life. What would your "blueprint" for reaching that goal look like?

☐ *Your Cornerstone:*
In ancient buildings, a cornerstone helped establish the position and direction of the entire structure. Jesus Christ is called "the chief corner stone" in Ephesians 2:20. Learn what a cornerstone does in a building, then think about your own life. What decisions become easier when Jesus Christ is your cornerstone? Write down three ways you can build your life more firmly around Him.
